M.A. Governance and Public Policy

Introduction to the Programme

M.A. in Governance and Public Policy is one of the new postgraduate programmes being offered by CUAP from the academic year 2024-2025 in tune with the National Education Policy, 2020. The programme provides the students with enriching experience in the field of Governance and Public Policy. It focuses on diverse strands of Governance and Public Policy: Public Policy Theories, Policy Making Process, Public Policy Analysis, e-Governance, Governance, Civil Society and Development and other emerging fields in the discipline. The programme contains the curriculum to equip learners with appropriate knowledge, skills and values of the discipline and emphasis is on student-centric approach.

Programme Objectives

- To comprehend the foundations and theoretical underpinnings of the discipline of Governance and Public Policy by locating various key concepts, evolution, theories, approaches, typologies and models.
- To have an in depth understanding on the different facets of Governance and Public Policies and their processes, applicability, actors and linkages with state and its development at the local, national and international levels.
- To analyze the dynamics of Governance and sector specific Public Policies and challenges thereof in Indian context.
- To enable the students to undertake research or pursue their careers both in public and private sectors.
- To equip students with the framework and capabilities to formulate and implement appropriate public policies in the interest of society at all levels.

Learning Outcomes

On successful completion of the programme students should be able to:

- Gain knowledge and understanding of the key theories and concepts of Governance and Public Policy, and insights into the theoretical advances in the discipline.
- Evaluate theories in the light of empirical evidence or normative repositions.
- Apply appropriate theories to understand and analyse social and political phenomena.
- Think critically about the role of political institutions, processes and issues in Governance and Public Policy process.
- Carry out an independent research in Governance and Public Policy with appropriate findings.

Important Information to Students

1. Programme: M.A. Governance and Public Policy.
2. Eligibility: Bachelor's Degree with at least 50% marks or Equivalent Grade in Social Sciences or Humanities subjects or 55 % marks in any other subject.
3. The minimum duration for completion of any PG Program is four semesters (two academic years) and the maximum duration is eight semesters (four academic years) or as per amendments made by the regulatory bodies from time to time.
4. A student should attend at least 75 % of the classes, seminars, practical/ lab in each course of study.
5. All theory courses in M.A. Governance and Public Policy carry Continuous Internal Assessment (CIA) component of 40 marks and Semester-end component of 60 marks. The minimum pass marks for a course are 40%.
6. In case of courses with lab component, Continuous Internal Assessment (CIA) component shall be of 60 marks and Semester-end component for 40 marks. The minimum pass marks for a course are 40%.
7. The student is given 3 Continuous Internal Assessment (CIA) tests per semester in each course from which the best 2 performances are considered for the purpose of calculating the marks in CIA. A record of the continuous assessment is maintained by the academic unit. The 3 internal tests are conducted for 15 Marks each, out of the best 2 tests scores are considered for 30 marks. Out of the remaining 10 marks, 5 marks are awarded for assignments, class presentations and class participation of the students and the remaining 5 marks are awarded for punctuality, and attendance of the student.

Marks for the Attendance will be considered as follows:

S.NO	ATTENDANCE %	MARKS
1	95% or more	5
2	90-94%	4
3	85-89%	3
4	80-84%	2
5	75-79%	1

8. A student should pass separately in both CIA and the ESE, i.e., a student should secure 16 (40% of 40) out of 40 marks for theory and 24 (40% of 60) out of 60 marks for lab components in the CIA. Therefore, a student should secure 24 (40 % of 60) out of 60 marks for theory and 16 (40% of 40) out of 40 marks for lab components in the End-semester examination (ESE).
9. Semester-end examination shall consist of objective type questions, descriptive type questions, short answer questions and case studies or any other recommended by the BoS.
10. A student failing to secure the minimum pass marks in the CIA is not allowed to take the end semester examination of that course. She/he has to redo the course by attending special classes for that course and get the pass percentage in the internal tests to become eligible to take the end semester examination.
11. Students failing a course due to lack of attendance should redo the course.
12. Re-evaluation is applicable only for theory papers and shall not be entertained for other components such as practical /thesis/ dissertation/ internship etc.
13. An on-campus elective course is offered only if a minimum of ten or 40% of the students registered, whichever is higher.

Course Code : MGP211	Course Title Measuring Governance
Core/ Elective : Elective	
No. of Credits : 4	

Course Objectives:

- To understand the need, significance and methodology associated with measuring governance.
- To acquaint with models and agencies of measuring governance.
- To comprehend governance indicators used to measure the effectiveness, transparency and accountability of governance systems.

Learning Outcomes:

- Evaluate and assess the relevance and reliability of governance indicators
- Able to apply quantitative methods such as statistical analysis and data visualization to measure and analyze governance performance.

Course Outline

UNIT – I

Introduction: Measuring Governance

- Need and Significance
- Methodological Plurality
- Inadequacy of Existing Measurement

UNIT – II

World Wide Governance Indicators (WGI)

- Voice and Accountability
- Political Stability and Absence of Violence
- Government Effectiveness and Regulatory Quality
- Rule of Law and Control of Corruption

UNIT – III

Models of Measuring Governance

- Procedural Measure
- Capacity Measure
- Output Measure
- Autonomy Measure

UNIT – IV

Measuring Governance Agencies

- UNDP Human Development Report: Human Development Index
- Transparency International: Corruption Perceptions Index – Global Corruption
- Barometer
- Global Integrity: Innovations for Transparency and Accountability

Course Objectives:

- To introduce the main concepts and uses of AI & ML.
- To understand the fundamental concepts and terminology of Artificial Intelligence.

Learning Outcomes:

- Apply search strategies effectively, distinguishing between uninformed and informed methods to solve AI problems.
- Write Python programs by understanding syntax, and applying programming constructs.

Course Outline

Unit- I

Introduction to Artificial Intelligence

- Definition & Basic Concepts of AI
- Applications & Future of Artificial Intelligence
- Characteristic of Intelligent Agents – Typical Intelligent Agents
- Problem Solving Approach to Typical AI Problems.
- Problem solving by Searching: Uninformed and Informed Strategies and Implementation
- Constraint Satisfaction Problems (CSP).

Unit – II

Knowledge Representation

- Logical Agents
- Propositional and First Order Predicate Logic
- Inference
- Knowledge Representation
- Uncertain Knowledge and Reasoning

Unit – III

Machine Learning & AI Applications

- Machine Learning Basics
- Learning from Examples
- Forms of Learning (Supervised, Unsupervised, Reinforcement Learning)
- Simple Models (Linear & Logistic Regression)
- Deep Learning AI Applications
- Natural Language Processing Models
- Machine Translation- Speech Recognition- Computer Vision - Image Classification.

Course Objectives:

- To familiarize with fundamental mathematical concepts including set theory, permutations and combinations.
- To understand the logical reasoning for efficient problem-solving, analysis of propositions and conditional statements.

Learning Outcomes:

- Analyzing financial instruments like stocks, shares, loans, insurance and income tax liabilities.
- Ability to compute measures of central tendency, dispersion, correlation and regression.

Course Outline

Unit-I Mathematics

1. Basic Set Theory

- Introduction to Sets
- Elements and Subsets
- Set Operations: Union, Intersection and Complement

2. Permutations and Combinations

- Fundamental Principles
- Permutation Formulas
- Combination Formulas

3. Mathematical Logic

- Propositions and Truth Values
- Logical Connectives
- Tautology and Contradiction
- Logical Equivalences
- Converse, Inverse and Contrapositive of Conditional Statements

Unit-II

Commercial Mathematics

1. Cost Price, Selling Price, Profit and Loss

- Basic Concepts
- Calculation Methods

2. Simple and Compound Interest
